Mo-Kan Pet Partners Evaluation Information Sheet

MO-KAN's purpose is to provide safe animal-assisted activity and therapy services to health and educational facilities by volunteers and their companion animals, making sure the teams are evaluated using Delta Society methods and procedures and are registered with the Pet Partner's program.

The evaluation begins when the handler leaves their car and ends when entering the car after the evaluation.

Please note that you and your animal are being evaluated as a team. This is a simulated visit; please dress accordingly. Treat the evaluation as if it were a visit to an institution.

Be proactive with your pet, talk to your pet, and do what is necessary to make your pet and yourself comfortable.

- **Required** items to be provided by the Handler:

1. Completed Handler's Questionnaire
2. Towel or small blanket if the animal will be carried (cat or very small dog).
3. Acceptable collar or harness and leash.
4. The animal's brush or comb.
5. Treat for one of the exercises (Optional).

Evaluations are scheduled throughout the year. Dates and locations are posted on the MO-KAN website, www.mo-kanpetpartners.org.

Team ratings are reported to Delta after each evaluation. In the setting of a reevaluation, should a rating or equipment change occur, the most recent evaluation results prevail.

It is the responsibility of the handler to schedule their reevaluation before their badge expiration date. Members are not allowed to visit with an expired badge.

MO-KAN members are responsible for at least four volunteer hours each year, either at a facility or assisting at a MO-KAN event.
